

Akij Textile Mills LTD Golora , Manikgonj, Bangladesh

TO WHOMSOEVER IT MAY CONCERN

This is hereby certified that we Akij Textile Mills LTD located at Golora, Manikgonj are using Anjney brand PPCH FR Pneumatic Pipes and Fittings for compressed air application in our weaving plant since 2017 Anjney Tubes India have successfully completed the work of material supply and fabrication of piping in compressed air application for their new project.

We are abundantly satisfied with the performance of PPCH FR Pneumatic Piping manufactured by Anjney Tubes India. Not only that, but we are also satisfied with their service as well as fabrication work, documentation and technical support. The piping is working satisfactorily till date in our plant with the capacity as under:

- ❖ Type of Industry: Weaving Plant
- ❖ No. of Looms: Total 238, PPCH FR used in 50 looms, Upcoming 40 looms.
- ❖ Brand of Air Compressor: Altas Copco, Ingersollrand
- ❖ CFM of Air Compressor: 272.6 m3/minute
- ❖ Pressure & Temperature applied: 36-37 degree celcius
- ❖ Pipe size used: 200mm , 75 mm, 25mm

In addition to that, we also wish to state that the entire work of supply and fabrication as well as documentation part was completed to our expectation and satisfaction. **We are not facing any leakage, pressure drop or corrosion issue in our compressed pipeline.**

In case of our future requirements of pipeline, we would surely approach Anjney Tubes India for their pipeline. We would also recommend these products manufactured by Anjney Tubes India for various industrial applications.

We wish Anjney all success for the long time to come.

We would like to Acknowledge that **BD DESIGNS PRIVATE LTD.**, has installed **ANJNEY BRAND PPCH FR PNEUMATIC PIPES and FITTINGS** at our factory at GARMENT FACTORY since March 2015, at CEPZ., Chittagong

1.	Type Of Industry	Garment
2.	Application	Compressed Air

ADVANTAGES COMPARED TO METAL PIPES

1. 0% pressure drop
2. No maintenance cost
3. It is 100 % leak proof piping
4. Good After sales service and support,

And hence we certify and recommend ANJNEY brand PPCH FR PNEUMATIC PIPES AND FITTINGS as it energy saving and ultimate replacement of metal pipes,

Date: 20/12/2015.

Designation: _____

We Evince Textiles Ltd located in Bangladesh were planning to replace our existing Metal Pipes and Fittings with PPCH FR Pneumatic Pipes and Fittings manufactured by Anjney Tubes India as we were facing issues of leakages and corrosion in our existing Metal Pipeline.

This is going to be the 2nd installation of Anjney manufacturing product range in our plant as we are already using these products in our unit Argon Spinning since last few years and we are extremely satisfied with the performance of their product range in terms of leakage free joints, NIL maintenance, negligible friction loss and pressure drop.

The fabrication team of B R Plasto Engineers has done a successful installation of Anjney PPCH FR Pneumatic Piping in our plant in compressed air applications in our plant having capacity as under:

- Type of Industry: Weaving
- No. of looms:
- Brand of Looms:
- Brand of Air Compressor:
- CFM of Air Compressor:
- Temperature and Pressure of Air Compressor:
- Earlier MOC of Pipeline:
- Pipe size supplied from Anjney Tubes India:

We are very much satisfied with the installation work of Anjney brand pipeline done by B R Plasto Engineers team (Authorized fabricator of Anjney Tubes India) and they were very much supportive and helpful to us. They have also guided us to do support work in our plant.

Very soon we will come up with the result and feedback of Anjney manufacturing PPCH FR Pneumatic Pipes and Fittings installed in our plant in compressed air application.

We surely recommend to use the pipes and fittings manufactured and supplied by Anjney Tubes India.

Subject: Product Satisfaction Certificate

We would like to Acknowledge that PREMIER 1888 MILLS/QUALITEX has installed ANJNEY BRAND PPCH FR PNEUMATIC and THERMAL FR COMPOSITE PIPES AND FITTINGS at our WEAVING PROJECT at our factory at CEPZ., Chittagong

1.	Type Of Industry	Weaving
2.	Application	Compressed Air and Chiller Line
3.	Sizes	160 mm, 110 mm, 32 mm
4.	Pressure receiving at the machine	7.6 Bar (same as compressor)

We have observed below mentioned advantages and we are satisfied compared to the metal piping on following basis

1. We have not faced friction loss, pressure lose at any point in the whole piping there is 0% pressure drop
2. It is 100 % leak proof piping
3. Earlier we had 1.5 Bar pressure drop and now we see no drop with ANJNEY brand pipes which saves significant amount of energy.

Moreover we have also received after sales service and support by ANJNEY TUBES INDIA

And hence we certify and recommend ANJNEY brand PPCH FR PNEUMATIC PIPES AND FITTINGS as it will be truly time tested, sturdy and friendly product.

WORT COMPLETION CERTIFICATE

We PT Sunrise Bumi Textile have installed **PPRCT FR Composite Pipes and Fittings** and **PPCH FR Pneumatic Pipes and Fittings** in our plant manufactured by *Anjney Tubes India* for Rain Water harvesting as well as compressed air applications.

We have installed these products for our new projects of compressed air cleaning line and for rain water harvesting, believing that with these pipes we will not face leakages and corrosion issues associated with metal pipelines.

Anjney Tubes India have supplied us their material and their authorized fabricator B R Plasto Engineers have successfully completed the erection work of their product range. As such, we did not find any problem related to the erection work or product quality supplied by Anjney Tubes India. They have also provided us the welding machine with all applicable moulds free of costs for any kind of instant workmanship requirement.

Subject: Product Satisfaction Certificate

We would like to inform you that we QUAZI ABEDIN have used ANJNEY PPCH FR PNEUMATIC PIPES AND FITTINGS at our 12 Lines GARMENT PROJECT at our factory at Shovapur, Rajfulbaria, Savar, Dhaka, Bangladesh.

We have observed the piping and we are satisfied compared to the metal piping on following basis

- 1. We have never faced friction loss, pressure lose at any point in the whole piping.**
- 2. There is nil maintenance in these piping and it is very good and presentable piping product.**
- 3. We have face 0% leakage compared to any of the metal piping.**

And hence we certify and recommend ANJNEY brand PPCH FR PNEUMATIC PIPES AND FITTINGS as it will be truly time tested, sturdy and friendly product.
